

TRIPLO

General production advice ware potatoes

- Suitable to make (home) fries
- Multi purpose variety
- Good Blight resistance

Morphology

Cooking type	B - Slightly mealy
Maturity	70 Medium early
Yield mature	104 Moderate high
Tuber size	82 Large
Tuber shape	Round oval / Oval
Number of tubers	9-11
Flesh after cooking	Light yellow
Skin colour	Yellow
Berries	Few berries

Tolerances

Dormancy period	54 Moderate short
Emergence	80 Fast
Metribuzin sensitivity	51 Sensitive
Foliage development	76 Strong
Internal bruising	8 Not sensitive
Little Potato disorder	80 Not sensitive
Dry matter content	20,2
UWW	385

Resistances

Spraing	Slightly susceptible
Foliage Blight	Susceptible
Tuber Blight	Slightly susceptible
Common scab	Susceptible
Powdery scab	Very susceptible
PVYn	Slightly susceptible
Yntn tuber tolerance	Slightly sensitive

PCN Resistance

Ro1	Ro2/3	Pa2	Pa3
-----	-------	-----	-----

9	+3		
---	----	--	--

Wart disease

F1	F2	F6	F18
----	----	----	-----

10	3	3	3
----	---	---	---

+ No official analysis / Stet own analysis

Fertilizer

- Nitrogen (N): approx. 200 kg N/ha inclusive of soil supply.
- Potassium and phosphate fertilisation as standard advice.

TRIPLO

General production advice ware potatoes

Pre-treatment and planting

- TRIPLO has a short dormancy.
- If an apical sprout is present, remove it and plant with small white buds.
- Pre-sprouting is not necessary.
- Avoid soils with high common scab pressure.
- Plant large seed deeper to avoid greening.
- Do not plant in cold soils in relation to the risk of irregular emergence.

Plant populations

Seed size	Plant population/ha	Row distance	
		75 cm	90 cm
-28/35	60.000	22	19
-35/50	50.000	27	22
-35/55	48.000	28	23
-50/60	34.000	39	33

- Plant depth: 3 cm deeper than normal.

Growing attentionpoints

- TRIPLO grows high in the ridge
- Variety is quite sensitive to metribuzin (Sencor), only use it pre-emergence.
- With risk of Common Scab, irrigate the crop at tuber initiation.

Haulmkillling and harvest

- TRIPLO is quite early maturing, haulmkillling shouldn't give any problems.

Storage

- Dry quick and keep it dry to avoid Silver scurf
- TRIPLO is little susceptible to Fusarium.
